

Cleaning and disinfecting advice

vinyl wallcovering

2022

general

- Stains should always be removed as quickly as possible.
- Soak up any wet stains with an absorbent material as much as possible.
- When cleaning always work from the edge of the stain to the centre in order to contain the stain.

matte designs

- Remove superficial dry dirt with a soft brush.
- Apply Vescom Cleaner by spraying it directly onto the wall or apply it with a sponge.
- Use a soft brush to remove any stubborn stains from the structure of the material.
- After cleaning remove any traces of dirt and cleaning product using a clean sponge and plenty of fresh water, dry the surface off with an absorbent cloth.

metallic designs

- Clean with a sponge and warm water. You can also use a mild non-abrasive cleaning product.
- Do not use a brush or a caustic or abrasive cleaning product.
- After cleaning be very careful to remove all traces of dirt and cleaning product using a clean sponge and plenty of fresh water then dry the surface off with an absorbent cloth.
