

Soft basics inspired by nature

Expansion collection vinyl wallcovering

Press Release

Deurne, September 2017

Three new designs that will connect your interior with nature: Onari, Greenbo and Millwood. Friendly, soft and organic. Basics with the look and feel of textile and the benefits of vinyl. Use these designs and colours to create a comfortable and pleasant atmosphere in the care and well-being sector.

Onari has a modern textile-like look and feel with a vertical rib. The expanded colour chart (25 colours) includes many natural colours, supplemented by soft pastels and hues of lavender, saffron and papaver.

wallcovering – design Greenbo

Greenbo has a natural, organic weave effect. The 20 soft colours are inspired by the gardens of Piet Oudolf. Greenbo lets grass and plant colours return to your interior.

The multi-coloured **Millwood** design sparkles and looks like linen with the functionality and quality of vinyl. The broad colour series (29 colours) with neutral linen hues, pastels and green tints make every interior soft and natural.
