

Safety information sheet

adhesive remover (CL 598)

2020

1. Identification of the product and company

1.1 Product name	Adhesive remover (CL 598)
1.2 Application	Cleaning agent
1.3 Supplier	Vescom B.V., PO Box 70, 5750 AB Deurne – Holland t +31 (0)493 315 833, f +31(0)493 310 645 www.vescom.com
1.4 Information in case of emergencies	See above under 1.3

2. Composition and data about the constituents

2.1 Chemical composition	Synthetic water-based cleaning agent
2.2 Hazardous base substances	C9-C11 alcohols, ethoxylated < 2% CAS number: 68439-46-3 Ammonia solution < 0,5% CAS number: 1336-21-6
2.3 Dangerous symbols	Xi
2.4 R phrases	36/38

3. Possible risks

3.1 General	The product has a low toxicity and does not represent a risk to health at room temperature.
-------------	---

4. First air measures

4.1 General	Take off contaminated clothing
4.2 Inhalation	-
4.3 Contact with eyes	Thoroughly rinse with running water during at least ten minutes. Consult a doctor if in any doubt.
4.4 Contact with the skin	Repetitive or long-term contact may degrease skin, which may lead to skin irritation and a dry skin. Thoroughly wash the skin with water and soap.
4.5 Swallowing	If the product is swallowed (ingested), consult a doctor immediately. Allow the patient to rest. Do NOT make him or her vomit.

5. Fire-fighting measures

- 5.1 General The product itself does not combust. Fire-extinguishing measures should be harmonised with the fire in the area.
- 5.2 Fire-extinguishing products Alcohol-resistant foam, CO₂, powder extinguishers, water mist.

6. Measures when the product is released

- 6.1 General Dam in the spilled material and use non-flammable absorption materials such as sand, soil, vermiculite or diatom soil to gather it up and place this in a container so that it can be processed based on local rules and regulations. Ensure that the material cannot enter into the sewer or surface water system. By preference, clean using a cleaning agent; avoid the use of solvents. If the product contaminates lakes, rivers or the sewer system, the authorities must be informed in accordance with the rules that apply locally.

7. Treatment and storage

- 7.1 General Special safety provisions are not required.
- 7.2 Treatment Avoid contact with eyes and skin. Ensure you observe health and safety instructions at work. Smoking, eating and drinking in the rooms where the product is used must be prohibited.
- 7.3 Storage Observe the recommendations given on the label. Store in a frost-free location; store the product at a temperature between 5°C and 30°C in a dry, well-ventilated room away from heat sources and direct sunlight. Always store the product in containers with the same material as in the original packaging material.

8. Exposure and personal protection equipment

- 8.1 General safety Ensure there is sufficient ventilation. Where possible, this should be achieved through source exhausting and a good spatial ventilation.
- 8.2 Breathing protection Special measures are not required.
- 8.3 Skin protection A non-permeable cream can help to protect exposed areas of skin. This cream may not, however, be applied if contact has already taken place. After contact all body areas must be washed.
- 8.4 Eye protection Use safety goggles if splashing can occur.

9. Physical and chemical properties

9.1 Form	Liquid
9.2 Colour	White
9.3 Odour	Ammoniacal
9.4 Viscosity	6.000 mPa.s (Brookfield HAT, @ 20°C)
9.5 pH value	11.5
9.6 Specific gravity	1.02 g/cm ³
9.7 Boiling point	100°C (water)
9.8 Freezing point	0°C (water)
9.9 Flash point	Not applicable
9.10 Explosion limits	Not applicable
9.11 Soluble in water	Unlimited

10. Stability and reactivity

10.1 General	The product is stable when stored and used as prescribed. If exposed to high temperatures, hazardous degradation products may be released such as carbon monoxide, carbon dioxide, smoke and nitrogen dioxides. Avoid all contact with oxidants and strongly alkaline and acidic materials to ensure exothermal reactions are not possible.
--------------	---

11. Toxicological information

11.1 General	No information is available about the product itself. Based on the information available to us, the product does not have a health-damaging effect if used correctly and if used in accordance with the instructions.
--------------	---

12. Environmental information

12.1 General	No information is available about the product itself. Based on the information available to us, the product does not have an environmentally-damaging effect if used correctly and if used in accordance with the instructions.
--------------	---

13. Recommendations for disposal

13.1 General	Do not have the product enter the sewer or surface water system. Waste and empty packaging must be disposed of in accordance with local municipal bye-laws.
--------------	--

14. Information with regard to shipment

14.1 General	The product does not represent a shipping risk in the sense of shipping rules and regulations.
--------------	--

15. Statutory information

15.1 Instructions	No designation obligation in accordance with EEC rules and regulations.
15.2 R/S phrases	R15/38

16. Other information

The information in this material safety information sheet is based on knowledge that is currently available to us. The working conditions of the users are unknown to the people writing this sheet and cannot influence the information. The product may not be used for purposes other than as specified under item 1.2. without prior written instructions for use.

The user is responsible at all times in ensuring that the required measures are implemented with regard to meeting the provisions made by local legislation and regulations.

The information in this sheet should be viewed as a description of the safety instructions that apply to our product: it should be viewed as a guarantee with regard to the properties of our product.
