

# Safety information sheet

according to 2001/58/EC and 1907/2006 (REACH)

## Vescom primer/sealer

April 2011

### 1. Identification of the product and company

1.1 Product name	Primer Sealer
1.2 Application	Dispersion adhesive
1.3 Supplier	Vescom B.V., PO Box 70, 5750 AB Deurne – Holland t +31 (0)493 315 833, f +31(0)493 310 645 www.vescom.com
1.4 Information in case of emergencies	See above under 1.3

### 2. Hazard identification

2.1 General	Non-hazardous material according to EU criteria.
-------------	--

### 3. Composition and information on ingredients

3.1 Chemical characterization	Dispersion adhesive based on copolymer.
-------------------------------	---

### 4. First-Aid measures

4.1 General	Take off contaminated clothing
4.2 Inhalation	-
4.3 Contact with eyes	Rinse thoroughly with cold running water. When in doubt seek medical advice.
4.4 Contact with the skin	Repeated or prolonged contact may cause skin irritation and/or dryness. Clean thoroughly with water and soap.
4.5 Swallowing	When product is swallowed, immediately seek medical advice. Keep patient quiet. DO NOT permit vomiting.

### 5. Fire-fighting measures

5.1 General	Product does not burn. Use extinguishing measures appropriate to the surroundings of the fire.
5.2 Extinguishing media	Dry powder, CO <sub>2</sub> , sand, water.

## 6. Measures when product is released

- 6.1 General Absorb product with liquid absorbing material such as diatomaceous earth and dispose of according to local regulations. Avoid contamination of sewerage or public waters. Preferably clean with cleaning agent; avoid use of solvents. When the product has contaminated public waters, lakes, rivers or sewerage, inform authorities in accordance to local regulations.

## 7. Handling and storage

- 7.1 General No special safety measures required.
- 7.2 Handling Observe safety and health regulations in your working area. Do not smoke, eat or drink in areas where the product is being applied.
- 7.3 Storage Observe recommendations mentioned on label. Protect against frost; store at room temperatures between 5°C and 30°C in dry and ventilated area, protect against heat sources and avoid direct sunlight. Always store product in containers identical to the original packaging material.

## 8. Exposure and personal protection measures

- 8.1 General safety General ventilation is required.
- 8.2 Respiratory protection No special measures required.
- 8.3 Skin protection Skin cream can be used for protection only before contact with product has occurred. After skin contact clean thoroughly with water and soap.
- 8.4 Eye protection Use safety goggles when splashing may be expected.

## 9. Physical and chemical properties

- 9.1 Appearance liquid
- 9.2 Colour white
- 9.3 Odour slightly acid
- 9.4 Viscosity 20 mPa.s (Brookfield HAT, @ 20°C)
- 9.5 pH-value 4,0
- 9.6 Density 1,04 gram/cm<sup>3</sup>
- 9.7 Boiling point 100°C (water)
- 9.8 Melting point 0°C (water)
- 9.9 Flash point not applicable
- 9.10 Explosion limits not applicable
- 9.11 Solubility in water completely miscible

## **10. Stability and reactivity**

- 10.1 General                      The product is stable when handled and stored in accordance to the description given in this bulletin (standard industrial practice). When exposed to high temperatures dangerous decomposition products such as hydrocarbonates (fumes, CO, CO<sub>2</sub>) may occur.

## **11. Toxicological information**

- 11.1 General                      Product is non-toxic. According to our information the product will not cause health risks when handled and stored in accordance to standard industrial practices.

## **12. Ecological information**

- 12.1 General                      No data known concerning the product itself. According to our information the product will not cause environmental risks when handled and stored in accordance to standard industrial practices.

## **13. Disposal considerations**

- 13.1 General                      Avoid contamination of sewerage or public waters. Dispose of according to local regulations.

## **14. Information on transportation**

- 14.1 General                      The product is non-hazardous with regards to transportation regulations.

## **15. Regulatory information**

- 15.1 Regulations                      No data required according to EEG regulations.  
15.2 R/S sentences                      Not applicable.

## **16. Other information**

The information given in this Material Safety Datasheet is based on our present knowledge. Application and working circumstances are not known to the authors of this bulletin and therefore can not be influenced by them. Without prior written application instructions, this product is not suitable for any other application as described in paragraph 1.

The end-user is always and solely responsible for the arrangement of required measures with regards to local regulations.

The information given in this bulletin is meant to serve health and safety regulations in relationship to our product: it may be read as a guarantee with regards to the specifications of our product.
